Joint Nordic Screening of Chemicals

Workshop on Non-target screening

8.-9. April 2014 in Ystad, Sweden

In the footsteps of Wallander

Svenska | English | Deutsch

About "I Wallanders Spår"

Millions of readers have followed Wallander...

Download the application to your phone

This guide is best when you are on location in Ystad. Do you have an iPhone or Android phone, you can easily download the application here (Android / iPhone) The easiest is to go into the App Store or Android Market and search for "Wallander" to find it instantly. Of course it is free!

Start > Ystad Saltsjöbad

Ystad Saltsjöbad

The trail after the killer in the film The Photographer (Sw film)leads Wallander the hotel. Skilful editing meant that the hotel's spa, the restaurant Vendel Ales Stenar in Kåseberga and a residential area in Ystad could be used to portray the exclusive and luxurious houses of Soldala in the film The Castle Ruins (Sw film).

September 24-25 2007	Workshop on environmental screening and risk assessment	Landskrona, Sweden
June 6-8 2001	Workshop on Monitoring the Environmental Fate of Chemicals	Sigtuna, Sweden

Literature studies

- A third task handled by the Joint Nordic Screening Group is organising literature studies compiling information or data on a certain subject across the Nordic countries. This work is, to a large extent, funded by the Nordic Council of Ministers, but it is also partly funded by participating national institutions, depending on resources and demand.

The goals of this workshop

· Discuss experience and use for non-target screening
· Present results from ongoing studies
· Discuss potential policy use and whether we are ready for a joint Nordic screening effort

Presentations will be possible to download from our website.

At the website you find all information about our work.

So – once again, welcome to Ystad and this workhop.
